

13 REASONS TO CHOOSE HERITAGE LOG HOMES

#1 - HERITAGE FOUNDED IN 1974

- Over 32 years experience manufacturing log homes for thousands of highly satisfied clients
- Security of partnering with a reputable nationally acclaimed company
- A solid history of continuous development and improvement

#2 - PATENTED, SELF-ALIGNING DOUBLE TONGUE-AND-GROOVE SADDLE NOTCH CORNER

- Virtually eliminates air infiltration at corner intersection
- Superior strength and durability
- Unique corner system in our industry
- Self-aligning corner speeds installation

#3 - THE HERITAGE THRU-BOLT LOG FASTENING SYSTEM

- Self-Tightening - Our system automatically adjusts to control the expansion & contraction of log walls
- Maintenance-Free - Once tightened properly, you'll never have to think about it again, it does all the work
- Features a patented anchoring system which makes installation a snap.
- Controls the settling process better than any other system
- Helps prevent air infiltration
- Promotes proper log settling often hindered by inferior methods like lag bolts and spikes
- Reduces construction time & labor costs
- Saves labor costs in the electrical wiring of your log home
- Gives us the confidence to offer a lifetime warranty on your log home

#4 - VARIED PRODUCT LINE

- Log profiles include our 12" round, 10" round, 8" round, 8" D, 6"x12" square hand-hewn, and also our new hand-crafted selections
- Peeled log finish is an optional upgrade
- Rustic timber products for interior and exterior posts

#5 - ONLY BOXED HEARTWOOD FOR MANUFACTURING YOUR LOG HOME

- Logs are independently graded "Log Wall 40" – The highest grade available
- Using the centermost part of the tree prevents cracking & reduces checking
- Reduces twisting and warping
- Results in more uniform settling
- Helps insure your home meets or exceeds all major building codes

#6 - IN-HOUSE DESIGN DEPARTMENT

- Gives you the capability to customize your Heritage Log Home
- Lowers cost to the customer
- Transforms your vision into reality
- Reduces the overall time table of completing your log home
- Includes log wall diagrams for ease in construction

#7 - LOG-LOK SPLINE & T-JAMB SYSTEM

- Aids with the proper settlement of your log home while maintaining correct log-to-log alignment
- Stops air infiltration at all joints, windows and doors
- Helps control movement of windows and doors due to settlement

#8 - STATE-OF-THE-ART MANUFACTURING EQUIPMENT

- Insures precise and uniform milling
- Improves the quality and appearance of your new log home
- Allows for accurate pre-cutting of window and door openings
- Reduces waste thereby helping to reduce overall costs

#9 - NATURALLY SEASONED LOGS

- Dries the log slowly and naturally stabilizing the moisture content
- Maximizes the natural fiber strength of the wood by avoiding damage caused by other drying methods
- Prevents cracking
- Reduces overall costs

#10 - WINDOWS & DOORS ARE INCLUDED WITH YOUR PACKAGE

- Heritage buys in quantity reducing the cost to the customer
- Built to Heritage specifications and dimensions to insure a high quality and alignment of the thru-bolt system, i.e. reduced labor cost in the field
- Doors are manufactured with exterior jambs to fit each log style
- Doors have lifetime warranty
- Standard windows are double-pane Low "E" insulated glass, tilt to clean, with snap out grilles and full screens

#11 - WINDOW & DOOR UPGRADES

- Pella windows and doors an optional upgrade and have been manufacturing high quality products since 1925
- Higher insulation values reducing heating and cooling costs
- Improves appearance to your log home
- Increases your resale value

#12 - ON-SITE TECHNICAL ASSISTANCE

- Our customer service representatives are on-site when you take delivery of your log package
- They review and check in all delivered materials
- Provides valuable assistance during the log erection process
- Provides on-site answers to your questions

#13 - CUSTOMER SERVICE AFTER THE SALE

- Heritage Log Homes stands behind any shortages or mistakes
- Available for questions during any phase of the construction process
- Offers other products for finishing, maintaining, and completing your new Heritage Log Home
